MEMORANDUM FOR THE DIRECTOR, INTELLIGENCE COMMUNITY STAFF

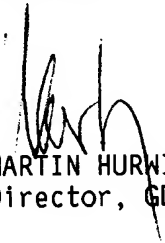

SUBJECT: Report on Equal Employment Opportunity within the General Defense Intelligence Program

Enclosures 1 through 4 respond to House Intelligence Committee direction to report on minority and female employment. They replace the Interim Report submitted on 31 January 1986.

Complete data for GDIP-funded positions in the Services are not available. In many cases, separate Equal Employment Opportunity (EEO) statistics are not maintained for GDIP and non-GDIP positions. Where possible, historical data were reconstructed for this report.

Because Army has no separate data for GDIP positions for FY 1975, data were extrapolated from overall Army percentages for that year. Also, with no separate Air Force data for GDIP positions prior to FY 1981, changes in number and distribution of minority Air Force employees are listed for the last four years, only.
